InterfaceFLOR

Nadine Gudz

Director, Sustainability Strategy
Directrice, Stratégie durable
InterfaceFLOR Canada, Inc.

As Director, Sustainability Strategy, Nadine is responsible for strategically leveraging and expanding InterfaceFLOR's environment and sustainability leadership position in order to help increase visibility of the company's Mission Zero™ vision through communication, education and community engagement.

Before joining InterfaceFLOR, Nadine was teaching in the Faculty of Environmental Studies at York University and served as a research fellow with the Institute for Research and Innovation in Sustainability. Following a diverse career path - locally and abroad - in education, research, environmental planning, and community development, Nadine is passionate about integrating her interests in ecology, learning and systems change in her work with InterfaceFLOR. She speaks extensively on topics such as going beyond the business case for sustainability, materials stewardship, and ecological design. Nadine was recently appointed to the National Advisory Panel of the Chemistry Industry Association of Canada.

Her academic background includes an honours undergraduate degree in Environmental Sciences from the University of Guelph and a Masters of Science in Sustainability Planning from the University of British Columbia. Her work on sustainability education and organizational change has been published in international journals such as the International Journal of Sustainability in Higher Education and International Journal of Environmental, Cultural, Economic and Social Sustainability.

Nadine is currently moonlighting as a Doctoral candidate, researching the links between ecological resilience and stakeholder theory in the context of accelerating sustainable business.

mission Ø

Mission Zero:
our promise to eliminate any negative impact our company may have on the environment by the year 2020.
